## F-15 NOSE WHEEL STEERING SHIMMY DAMPER ACTUATOR

Moog has repair and overhaul capabilities for the F-15 Nose Wheel Steering Shimmy Damper Actuator and its subassemblies being flown on all F-15 A-E models, as well as international variants. Moog is the original design authority on a number of F-15 flight control components including the Pitch & Roll Channel Assembly (PRCA), Aileron Rudder Interconnect (ARI), and Fly-By-Wire version of the Rudder Servoactuator. The USAF has approved Moog as a qualified source of repair and overhaul services for this part. Additionally, Moog is under contract by the USAF to implement design improvements to increase performance and reliability.
