

Product Type	Sample Applications	Capabilities
Hydraulic Actuation Systems	<ul style="list-style-type: none"> <li>• Valve Control</li> <li>• Actuation of Hatches and Locking Rings</li> </ul>	<ul style="list-style-type: none"> <li>• Rotary Actuators up to 150,000 in-lbs</li> <li>• Linear Rack &amp; Pinion up to 50,000 lbs</li> <li>• Industry Leading Reliability</li> <li>• State of the Art Acoustic Performance</li> </ul>
Electrohydraulic Servoactuation	<ul style="list-style-type: none"> <li>• Steam Turbine Throttle Control</li> <li>• Emergency Shutdown Systems</li> <li>• Rudders &amp; Bow Planes</li> <li>• Torpedo Fin Actuation</li> </ul>	<ul style="list-style-type: none"> <li>• High Speed, High Precision Motion Control</li> <li>• Integrated Control Unit, Servovalves, and Actuator</li> </ul>
Electromechanical Actuation	<ul style="list-style-type: none"> <li>• Valve Control</li> <li>• Steam Turbine Throttle Control</li> </ul>	<ul style="list-style-type: none"> <li>• Permanent Magnet Brushless Motor Technology</li> <li>• Rotary Actuators 200 to 20,000 in-lbs</li> <li>• Linear Actuators up to 7,000 lbs</li> <li>• Controllers up to 150kW</li> <li>• Mil-STD-461 EMI Compliant</li> <li>• Mil-S -901 Shock Capability</li> </ul>
